To whom it may concern,

I feel very strongly that UBER should continue to serve the Charleston area. Why would we remove a convenient alternative to taxi cabs? We have the highest drunk driving rate in the country and now UBER is being removed as an option??? I have used UBER many times here and in NYC and only have wonderful feedback. I hope that UBER can stay in Charleston and continue to provide safe rides for us all!

Subject: UBER

The UBER platform and concept is a much need service in ALL areas of our universe INCLUDING South Carolina. All one needs to do is take a ride in a taxi and then in a UBER car and the difference is very obvious. The convenience, ease, and service UBER offers is far superior to any taxi service I have ever had. Please consider this and remove the order to stop UBER.

Taxis are terrible in Charleston. There aren't enough of them on the road. When you can get a dispatcher you are forced to wait an hour in most cases for the ride and then pay a premium. People deserve a better choice and one that is affordable and convenient. Services like Lyft and Uber can provide readily available and affordable transport to those that need it. Services like these keep drunks off the roads and allows those without transportation easy and reliable access.

Best!

Subject: Uber

Good Afternoon,

I've lived in Greenville for about two years now. Prior to Uber arriving, the cab scene was absolutely awful. If you were to call for a cab downtown you were looking at a 30 minute wait at the least and often times they wouldn't show up at all. The drivers are rude and the cars are old and dirty. Downtown Greenville is an awesome town with an incredible nightlife on the weekends. This of course naturally involves alcohol consumption. Not being able to get a cab after a night of drinking is UNACCEPTABLE. Since Uber arrived that has been a complete NON ISSUE. Taking Uber away and going back to the old broken system is wreckless and irresponsible. Do not take Uber away from SC.
